The Sun Family Foundation Empowers Orange County's Future Workforce with Multi-Year Support for Hope Builders

Santa Ana, CA — June 18, 2025 — Hope Builders is proud to announce a generous multi-year grant from *The Sun Family Foundation* in support of its workforce development programs. This transformative gift will directly impact the lives of young adults in Orange County, helping them gain critical skills, secure meaningful employment, and build brighter futures for themselves and their families.

Founded in 1999 by David Sun, co-founder of Kingston Technology, and his wife Diana, *The Sun Family Foundation* envisions a world where all individuals and communities have access to opportunity. Their continued investment in organizations like Hope Builders reflects their deep commitment to economic empowerment and community resilience.

"The Sun Family Foundation's support is helping us build a stronger, more inclusive workforce in Orange County," said Shawna Smith, Executive Director of Hope Builders. "Their partnership enables us to provide the mentorship, life skills, and job skills training our young adults need to succeed in today's economy."

Among those transformed by this support is **Cesar**, a recent Hope Builders graduate. Before entering the program, Cesar worked part-time with his father on weekends and struggled to find a path to long-term stability. When he learned he was going to become a father, he knew it was time to make a change. Hope Builders provided the opportunity.

Through Hope Builders' 12-week construction training program, Cesar gained hands-on technical experience and worked with a case manager to develop professional communication and job-readiness skills. Today, Cesar is employed full-time as an electrical laborer at SASCO, earning \$43,000 annually with full benefits.

"Hope Builders changed my life," said Cesar. "Because of this program, I will be able to reach my goals and have the money to support my family. I am now looking forward to watching my son grow."

Hope Builders extends heartfelt thanks to The Sun Family Foundation for its vital role in empowering young adults like Cesar. With their support, we are not only opening doors to economic opportunity—we are creating a more resilient and equitable future for all of Orange County.
